\*If you need this quilt by a specific date, please indicate the date needed. Please allow four weeks for the completion of any quilt. If this is not done, every attempt will be made to complete the quilt by the requested date. However it may not be possible.

\*\*Binding can be made from the excess of backing fabric. To calculate needed yardage for binding measure the width and length of the quilt then use the following equation. ((Width \* 2) + (Length \* 2)) + 13) = x, x / 42" = y rounded up, y \* 2.5" = z / 36" = yards required Example: 72" x 60" quilt size ((60" \* 2) + (72" \* 2)) + 13 = 205", 205" / 42 = 4.886, 5 \* 2.5" = 12.5" / 36 = 0.35 yards or  $\frac{3}{8}$  yard
